ZERO  **eco** 

**WATER-BASED
SPRAY PAINT**

World's 1st solvent-free spray paint!

World's leading spray paint technology:

1st non-flammable spray paint

Safe for you and the environment

Outstanding coverage - 3 times more than other spray paints

The coverage of **MASTON ZERO** 400ml is 3m²: three times more compared to conventional spray paints. Thanks to its unique water-based technology, the paint does not contain any solvents. It is safe to use inside and outside with no unpleasant smells. The propellant mixture is the only evaporative element, which makes it 4 times more environmentally friendly than ordinary spray paints. Maston Zero is the first non-flammable spray paint in the world.

Exceptional
3m² coverage

Odour free

No spray dust

No run downs

Easy to clean

Maston Zero

- Paint it fast, paint it easy & odour-free, paint it anywhere, anytime - free of spray dust

Outstanding coverage - Safe to use

More paint and less propellants delivers more coverage. Zero's solvent-free formula delivers safe and odour-free painting experiences anywhere and anytime.

All surfaces

Use Maston Zero on practically all surfaces: wood, metal, plastic, glass, ceramics, dried plants, cardboard and even polystyrene.

Instant coverage

Once cross layer creates an instant, incredible coverage of 3m² with a film thickness of 25 to 30 microns without risk of run downs. The paint can be re-coated at any time, wet-on-wet or wet-on-dry. Surface is touch dry after 90 minutes and dry after 48 hours.

Paint Zero.

Pure water for your and the planet's health.

Easy to use

The general instructions with easy-to-understand icons can be found on the label.

INFORMATION VALID AT <20°C, RELATIVE AIR HUMIDITY 35% - 80%

Technical information

The first non-flammable spray paint in the world (EU-directive 2008/47/EC). Contains only 24% propellants of the weight. The VOC content is 216 g/l. For more information see technical data sheet. International patents pending.
